-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Claim Suggestions***

For ease of reading, it is suggested that “includes” in line 2 of claim 25 be changed to “comprises”. In claims 26-27 it is suggested that the colons that appear after “Type I”, “Type II”, “Type III a”, “Type III b”, “Type III c”, and “Type III d” be changed to “is”. In claim 29, it is suggested that the phrase “and freshness” in the seventh line of the claim be canceled because it is superfluous.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claim 29 is rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The limitation, “Establishing a standard curve between freshness and the electrical output of a biosensor”, is critical or essential to the practice of the invention, but is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). There is no disclosure in the specification related to the establishment of a standard curve that makes a correlation between freshness and the electrical output of the claimed biosensor. It is noted that Figure 4 shows equivalents of histamine as a function of time for a food sample. However there is no disclosure regarding the establishment of a standard curve relating to figure 4.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 29 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 29 is rejected because the metes and bounds of the term “freshness” in line 3 of the claim are undefined. It is unclear if this instance of “freshness” is related to the freshness biomarkers in lines 1 and 2 of the claim or if this instance of “freshness” is meant to refer to some other freshness-related quality besides freshness biomarkers of the food sample.
